

Bank Validation

Validate bank account, sort code and credit card details in real-time

As the world of banking transactions increases rapidly, so does the need for assuring payment details are captured correctly. Failed payments increase companies' operating costs and cause inconvenience and customer dissatisfaction. Our accurate bank validation technology enables faster and hassle free payments and help provide better customer experience.

Integrations:

- Your [website](#) and internal software systems as an auto fill web service
- API integration ([Sage](#), [Salesforce](#) and [Microsoft Dynamics](#))
- Shopping cart solutions API integration ([Magento](#), [OpenCart](#) and [Prestashop](#)).

Features:

- Capture accurate bank details first time, every time.
- Validates all major debit and credit cards
- Get full branch details
- Check that IBAN is valid and get ready for SEPA compliance

Our services can be installed and integrated into your systems in minutes.

Benefits:

- Help fraud protection
- Save money from avoiding failed payments
- Improve customer experience
- Avoid unnecessary operational costs
